ORGAN AND TISSUE DONATION CAMPAIGN

## The Facts

### One organ and tissue donor:

Can save  
up to

**8**

lives

Restore  
sight to

**2**

people

Enhance the lives  
of more than

**50**

people

All major religions in the U.S. believe in donation & see it as a final act of generosity.

An individual's donation status does not affect medical care. The first priority of medical professionals is to save lives.

Anyone can register to be an organ and tissue donor regardless of age, race or medical history.

There is no cost to the donor or their family for organ and tissue donation.

## Our Story

Since 1976, the Mid-South Transplant Foundation has helped to facilitate the organ and tissue donation process between donor families and transplant recipients and promotes awareness of donation through public and professional education.
